

Arkova Verification Certificate

Generated: Sep 3, 2026, 12:41 AM UTC
Verification ID: ARK-2026-001

Status: Verified

Document Information

Filename diploma.pdf
File Size 12.1 KB
Document TypeDIPLOMA

Issuer

OrganizationAcme University
Issued Jun 1, 2026, 10:00 AM UTC

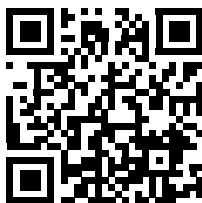

Cryptographic Proof

Fingerprint (SHA-256)
aaa
Network Receipt
dd
Verification Tree Root
bb
Verification Path2 step(s)
left: ccc
right: ee
Record Position#3
Tree Leaf Count8
Network Record#850,123
Proof Schema Version1
SignatureEd25519 (treasury-ed25519-1)
Network Observed TimeJun 2, 2026, 3:00 AM UTC

Lifecycle

Created Jun 1, 2026, 10:00 AM UTC
Secured Jun 2, 2026, 3:00 AM UTC

Verify Online

Scan this code, or open the link below, to check this record against Arkova's live verification page.

<https://app.arkova.ai/verify/ARK-2026-001>

This link is a convenience, not the evidence. The checks above can be run without Arkova.

Verify This Certificate Offline

This certificate carries a complete, machine-readable proof packet (below). Anyone can re-check it independently:

1. Compute the SHA-256 fingerprint of your copy of the document and confirm it matches the Fingerprint field.
2. Walk the Verification Path from the fingerprint to the Verification Tree Root.
3. Confirm the Verification Tree Root appears in the referenced Network Record on the public network.

Reference verifier: <https://app.arkova.ai/verify/independent> — step-by-step instructions for re-checking this packet yourself, and how to get the open-source command-line verifier.

Machine-Readable Proof Packet

The JSON below is also embedded in this file's document properties for automated extraction.

[illegible]

This certificate was generated by Arkova. It asserts that the document fingerprint was observed at the stated time.

This certificate does NOT assert the accuracy of document contents, the identity of the issuer, or the validity of the document itself.
